

The Prelim App includes a summary dashboard with payroll data and reports loaded to your department's inbox during each preliminary and production payroll run. Data and reports will be generated three times before payroll runs at the close of business 3 days, 2 days, and 1 day before payroll. Reports will be available for 24 months.

Note: The left-hand navigation options may vary depending on your assigned role.

Logging In

To access the Prelim App:

1. Click the URL: https://hrm-prelim.alabama.gov/

Email 2
The Email field is required.
Password 3
The Password field is required.
Log in 4

- 2. Enter your state Email address.
- 3. Enter your **Password**.

Note: Password is unique to the Prelim App and is not connected to LDAP.

4. Click the **Log in** button.

Prelim App Dashboard

The Dashboard home page displays a high-level graph view of your data. Scenario options include the run number, Pay Cycle, and Date; click the drop-down to select. Your department preloads. Use the Rollup/Rollup Values to refine the data. Just be sure to click the Refresh button to update the results.

🔶 Home	Dashboard

The Execution Summary section displays:

- No of Employees •
- Checks > \$0
- \$0 Checks and Gross > 0 •
- \$0 Checks and Gross = 0 •

Note: You may access the Employee Pay Summary by selecting the option from the left-hand navigation or clicking one of the graphs.

The Execution Detail is an interactive graph with the following details:

- Pay •
- **Employer Pay Fringes** •
- **Employee Deductions** •
- Tax

Note: Clicking a bar on the Execution Detail graph will open a related Pie Chart below the grid. Hover your mouse over the slices in the pie to see the breakdown.

Pay Detail

Employee Information

The Employee Information details each employee's last three (3) years, current year plus two (2) historical years. The department field is defaulted to your department. Click the Search button to view all employees or use the filters and the Search button to narrow your results.

- 1. Use the **Scenario** drop-down to select the desired run.
- 2. Select your **Department**.
- 3. Select Rollup, optional.
- 4. Select Rollup Values, optional
- 5. Click the **Filter** button.

Scenario Summary displays employee count, check count, zero-dollar check count, zero gross check count, gross amount, check amount, deductions, taxes, and fringes.

The data may be exported to Excel by clicking the Export button.

Note: You may click a number in the Empl Count column to access the Employee Pay Summary page.

Employee Pay Summary

The Employee Pay Summary provides details for each employee's paycheck.

Publications

Publications contain HRM and Financial reports in a Prelim or Production folder.

The Prelim folder reports are generated from the Prelim App. The Prelim App will create a report three times before payroll runs. This provides you with multiple opportunities to correct issues. Reports will be generated at the close of business 3 days, 2 days, and 1 day before payroll. Use these reports to review accounting and budget data to determine if any actions are needed before payroll runs.

The Production folder reports are generated from infoAdvantage and replace the FRMS reports (retained for 24 months). Each folder has an option for HR users (GTN and PAM Reports) and one for accountants (Financial Reports).
